PROFESSIONAL SUMMARY

Results-driven Computer Science & Engineering Team Lead with technical expertise in Full-Stack Web Engineering, AI Solutions, Java, Python, Cloud Architectures, and Database Management Systems. Proven track record in leading cross-functional tech teams, architecting scalable web applications, and delivering multi-agent diagnostic platforms.

WORK EXPERIENCE

Team Lead @ LTI (Larsen & Toubro Infotech) 2023 - Present

- Led software engineering workflows, code reviews, and architecture planning for enterprise client applications.
- Engineered high-performance RESTful APIs, responsive web interfaces, and backend microservices.
- Mentored junior developers and streamlined project delivery speed by 35%.

Digital Marketing & Tech Operations @ GSC 2022 - 2023

- Managed web infrastructure, SEO optimizations, and digital product analytics.
- Automated customer intake pipelines using Node.js scripts and cloud integrations.

Practical Engineering Trainee @ Celtan 2021 - 2022

- Developed Java and Python backend modules for IoT hardware and data processing.

KEY ENGINEERING PROJECTS

NovaCare-AI: Diagnostic Intelligence Platform

Multi-agent AI medical assistant providing real-time symptom analysis, lab report parsing, and specialist recommendation engines. Built using Python, PyTorch, React, and Node.js.

Enterprise Portfolio & Data Control CMS

EDUCATION

B.E. Computer Science & Engineering

R.M.K. Engineering College

Focus: Distributed Systems, Cloud Architecture, DBMS

TECHNICAL SKILLS

Core Languages

Java Python
JavaScript (ES6+) C / C++
SQL

Web & Frameworks

React.js Node.js Vite
Express.js REST APIs
HTML5 / CSS3

Cloud & Databases

Cloud Computing
DBMS / MySQL Vercel
Zoho Catalyst Git / GitHub

CERTIFICATIONS (14)

NPTEL: Cloud Computing
IIT Kharagpur

NPTEL: Database Management Systems
IIT Kharagpur

Python Data Structures

Full-stack portfolio and real-time CMS featuring 2-Step Server-Side Google Authenticator TOTP 2FA security, dynamic project rendering, and direct dispatch integrations.

Coursera / Univ. of Michigan

**AWS Cloud Architecture
Foundations**

Amazon Web Services

Software Engineering & Agile
